

Spelling and colorimetry Report of the SimplyCar website

Translation mistakes:

On the page « Contacts » : modify grayed out banner « Contacts » in « Contactos »

On the page « Home » :

In the slide of images for the image with the title : « Alugue nunca foi tao simples » translate this into : « Alugue nunca foi tão simples »

In car rental form with the title : « Alugue sou veiculo » in the drop-down form of the hours it must change « Meio dia » for « Meio-dia », the drop down menu : « Selecione combustivel » must be correct into « seleccionar o combustível ».

In category « Nossa Frotas » :

- Above of each images of car at : « More information » translate to : « Mais informações ».
- For buttons above each car where is written : « View details » When translate « Mais detalhes ».
- For thumbnails indicating prices of each location of cars instead of : « per day » Translate this in « por dia »

On the page « Contacto » : the form « Contate nos » translate each :

« Your name » into « Seu nome »

« Your Email » into « Seu email »

« Enter your message » into « Escreva a sua mensagem »

The button « Send Message » into « Enviar mensagem »

On the page « blog » in the grayed out tag where is written : « News & Updates » translate this into « Notícia & Atualizações »

Colorimetry :

All bellow on the page « Home » : it's necessary to modify the color of the button « Contate-nos » because the actual don't fit with the rest of the color of the website.

Nothing to report on the pages « Alugue seu veiculo », « blog », « Sobre nos », « Contacts ».

The website have some issues of fluidity and the loading of this website is very slow,there are some causes like :

- The size or format of the images must be compressed (probably)
- The PHP data version should be update (highly recommended)
- (Maybe to delete the plug-ins who are not used(because it's may to create conflits between differents plug-ins)).
